

Regional SNAP Directors:

The FY 2015 final SNAP-Ed Allocations are attached. These updated allocation amounts supersede the estimates that were provided for planning purposes in March with the FY 2015 SNAP-Ed Guidance.

As you are aware, this continues the change in the funding formula to determine SNAP-Ed grant allocations, as described in the *SNAP: Nutrition Education and Obesity Prevention Grant Program* Interim Rule published on April 5, 2013. Beginning in FY 2014, funding was based on State shares of SNAP-Ed expenditures in addition to State shares of SNAP participation. The weighting of expenditures to participation was adjusted for FY 2015 and will be adjusted annually until it is 50/50 weighting of expenditures to participation by FY 2018.

Any differences in State allocations can be attributed to the receipt of final SNAP participation data.

For FY 2015, the requested appropriation for SNAP-Ed programming is \$407 million nationally. SNAP-Ed allocations are subject to the availability of Federal funds.

The Under Secretary's Office and SNAP looks forward to working with your team throughout the next year to increase the use of evidence based nutrition education and obesity prevention activities in State SNAP Ed plans. This includes our mutual goal to strengthen technical assistance for the States that are receiving funding increases.

Please let me know if you have any questions.

Thank you,

Ronald Ward  
Director, Program Accountability and Administration Division  
Supplemental Nutrition Assistance Program
