San Bernardino County

- Largest county in the contiguous United States
- Population of over 2.1 million
- Approximately 39% SNAP-Ed-eligible
- Adult overweight/obesity prevalence of 70%
County Nutrition Action Partnership (CNAP)

**Vision:**
We envision a County where access to healthy choices is a right

**Mission:**
To make healthy choices accessible and affordable to all through collaborative partnerships

Collaborate and foster partnerships to:

- Enhance communication between agencies and organizations
- Increase access to healthy foods
- Improve food security in the CalFresh/SNAP food-eligible and low-income population
- Promote physical activity
- Provide consistent nutrition messaging and education
County Nutrition Action Partnership (CNAP) Priorities/Activities

• Bi-monthly/quarterly CNAP Meetings

• CNAP School Meal Access Collaborative (formerly Summer Meals Collaborative) and Quad County School Meal Access Collaborative

• CalFresh outreach

• Farmers markets (Market Match)

• Literacy and nutrition education
County Nutrition Action Partnership (CNAP)

Local Food Access in Response to COVID-19

April 29, 2020
CNAP School Meals Access Collaborative

Co-chairs, Redlands Unified School District and No Kid Hungry

Co-chair, Adelanto Elementary School District
The CNAP Quad: How Los Angeles, Orange, Riverside and San Bernardino County Nutrition Action Partnerships (CNAP) Support School Meal Access During COVID-19

SAVE THE DATE

"INNOVATIVE BACK TO SCHOOL SERVING STRATEGIES"
Thursday, July 16th 2-3:35pm PT

At this time, many School Nutrition Directors find themselves unsure of how to serve their kids safely and how to present these ideas to their district administration. Are you wondering how to implement meals in the classroom, grab n’ go or other modified styles of service at the start of the school year? Wondering or are you unsure how you will make this work with distance learning, half-day or A/B schedules?

In this webinar, No Kid Hungry California, in partnership with four Southern California County Public Health Collaboratives, present a variety of solutions for feeding kids in this COVID-19 era. You will hear from Nutrition Directors and others on the different meal models they plan to use to ensure their children still have access to meals that they need.
Good for Students, Good for Schools: How CalFresh Promotion Will Move Districts Forward
